

RECEIVED NOV 16 2016

Phone call of Fox Solar Opposition-

Received Wednesday morning, November 16, 2016 from **Jim Gunderson** at **15 Fawn Drive**, he feels there is an overwhelming concern and the general consensus in the area is "NO". He feels this project does not belong in this location next to a residential area, and there are plenty of locations that you do not get cellular phone service, and that these should go in those location.
