Ref: Data Collection and Review

The review team has been covering all the substantiated and unsubstantiated allegations that have been investigated by our PREA Investigator in accordance with 115.86 sexual abuse incident review standards monthly. The office has implemented a new jail management system and the steps in the booking process (new questionnaire and reassessment process) came over. This process makes data collection easier to track for the PREA Coordinator.

In 2017 the SART team did not have and recommendations in the following area's; (1) there is no need for policy changes at this time due to our recent audit, (2) are the incidents motivated by race; ethnicity; gender identity; etc., no, (3) the investigator is the only one checking the area of the alleged incident, (4) staffing levels are adequate for the size of our facility, (5) our new camera system has been a vital part of our investigative process. PREA Investigator is still doing a great job. Training for all employees, contractors, volunteers and inmates concerning PREA are continuing.

All data for the year 2017 has been review and will be posted on the Sheriff Office website.

Keith Kaululaau, Lieutenant
