Addendum A
Region One Fire Emergency Language & Billing Protocol
Coop Law Enforcement Agreements / Annual Operating Plan

Fire Emergencies:

During fire emergencies, the U.S. Forest Service will reimburse the County for ACTUAL COSTS incurred for providing assistance requested by either the Agency Administrator or Incident Commander.

Reimbursement for personnel wages and services are based upon the information in the resource order and must identify the number of road blocks, number of personnel required, hours and time frame required and must be ordered by the Incident Commander or Agency Administrator. A copy of the resource order generated for the request for assistance will be provided by U.S. Forest Service dispatch to the County. It is critically important that the IMT, Agency Administrator, and the Sheriff /County Official agree to what emergency services are needed and listed in the Resource Order and Incident Action Plans for each day until this resource is no longer required.

Upon request of the Agency Administrator or Incident Commander, a County designated Liaison(s) to the fire incident(s) may be established. The liaison will be requested via an incident resource order. The Liaison(s) primary duties, on behalf of the County Sheriff, will be to attend public meetings, planning and IC meetings. Eligible costs for reimbursement will include personnel time and mileage when fulfilling the liaison duties.

If meals are provided for county officials by the incident, they will be given in lieu of any per diem entitlements.

Administrative support (e.g. posting incident time, bill preparation, etc.) will be reimbursed on an actual cost basis. The County will prepare and submit an itemized accounting of actual cost as part of the reimbursement request.

What is not eligible for reimbursement?

1. Law enforcement duties that are within the county's normal jurisdictional responsibilities such as enforcement, patrols, evacuations. 2. Automotive repairs, tires, and services are covered in the mileage rate.

Billing Protocol:

Documentation required to be submitted by the County to the U.S. Forest Service for payment processing:

- Resource Order. Resource order will state what kind of assistance is ordered, how many people requested, and the time period for the services as ordered by the IC or Agency Administrator.
- Copy of Law Enforcement Agreement and Annual Operating Plan.
- DUNS number.
- Breakout of actual costs:
 - Salary – Daily Crew Time Reports or timesheets of personnel signed by an Incident Management Team official, and Payroll Summary Report by hours and rate of pay per person per day.
 - Supplies – Copies of receipts with date and description of items purchased and FS authorization (S# or U.S. Forest Service Signature) for purchase.
 - Mileage – Summary by day by vehicle and personnel using the vehicle.

For questions concerning incident/fire emergencies, please contact Tracey Nimlos, Regional Incident Business Coordinator at (406) 329-3331 (tnimlos@fs.fed.us). Bills will be submitted to: Tracey Nimlos, Incident Business Coordinator, U.S. Forest Service, Fire/Aviation/Air, 26 Fort Missoula Rd, Missoula, MT 59804.

ITEM	Public Meeting for Final Plat Approval of Rolling Meadows Phase 3 Major Subdivision
INITIATED BY	Bob & Gale Morgan, Bonesteel, LLC
ACTION REQUESTED	Final Plat Approval for Rolling Meadows Phase 3 Major Subdivision
PRESENTED BY	Sandor Hopkins, Interim Planning Director

BACKGROUND: Bob & Gale Morgan, Bonesteel, LLC, request final plat approval for Rolling Meadows Phase 3 major subdivision that will create fourteen (14) residential lots ranging in size from 1.30 acres to 2.23 acres and one (1) utility lot, 0.54 acres. The property lies within the Mixed Use (MU) zoning district and the total acreage of the proposed site is 28.30 acres. Access to the proposed subdivision utilizes two separate ingress/egress from West Ulm Road, Ponderosa Drive and Caragana Drive, and Lots 3N and 3M are served by separate approaches from Ulm-Vaughn Road. This subdivision was reviewed and approved by the Department of Environmental Quality for water, wastewater, and stormwater on December 19, 2019. This application received preliminary plat approval from the County Commission on June 26, 2018. The developer later sought a subdivision variance request from modern County Subdivision Road Standards to utilize existing roads and infrastructure that met County Standards when the subdivision was originally developed in 1996. This variance request was granted by the County Commission on December 11, 2018. The preliminary plat approval had nineteen (19) conditions that needed to be met prior to final plat approval, except as noted by variance, as listed below.

1. Having the developer's surveyor correct any errors or omissions on the preliminary plat;
2. Causing to be prepared certificates of title of the land in the subdivision to be recorded in conjunction with the final plat;
3. Submitting with the plat a certificate of a title abstracter showing the names of the owners of record of the land and the names of lien holders or claimants of record against the land (M.C.A. 76-3-612);
4. Causing to be recorded in conjunction with the final plat the covenants of the Major Plat that contain, at a minimum, a noxious weed control program, an erosion control program, a limit to livestock and pets, a provision prohibiting commercial or industrial uses, and that impose upon all landowners the exclusive responsibility to improve and maintain the public rights of way created by and indicated on the subdivision plat;

5. Causing to be recorded in conjunction with the final plat homeowners' association documents with sufficient authority and procedural mechanisms to administer, enforce, and fund the perpetual maintenance and discretionary improvement of the public rights of way created by and indicated on the subdivision plat;
6. Causing to be recorded on the plat a statement concerning limited public services;
7. Pursuant to 7-22-2152 M.C.A. (2017), submitting a written plan to the Cascade County Weed Board specifying the methods for weed management procedures with regards to this development;
8. Causing to be recorded on the plat an Agriculture Notification statement;
9. A certificate of waiver of park land dedication and acceptance of cash in lieu thereof statement placed on the plat;
10. Causing to be recorded in conjunction with the final plat, an agreement requiring property owners of each subdivision tract to take part in any Rural Special Improvement District (RSID) for the reconstruction, improvement or perpetual maintenance of West Ulm Road, Ulm-Vaughn Road, or any county road in the vicinity used to access the major subdivision, Rolling Meadows Phase 3, or any other road that can be used to access these lots as determined by Cascade County, provided that all other property owners served by said road share equitable in such an RSID. This waiver shall expire 20 years after the date the final plat is filed with Cascade County. This statement of waiver shall be placed on the final plat.
11. Design, construction, inspection, and certification, by a licensed professional engineer, of all internal private roads and cul-de-sacs to Cascade County Subdivision Road Specifications, as well as the purchase and installation of all required street signs and stop signs. All of the above items to be at the developer's expense and to be completed prior to the approval of the final plat.
12. The inclusion on the major plat a statement provided by Cascade County certifying the status of the internal subdivision roads.
13. The inclusion of setbacks in the covenants as required by the Cascade County Zoning Regulations;
14. Montana Department of Environmental Quality (MDEQ) Certificate of Subdivision Approval (COSA) shall be submitted with the final plat;
15. Cause to be filed with final plat a Declaration of Covenant that declares that all of the properties described shall be held, sold, and conveyed subject to the following covenant which shall run with the real property and be binding on all parties having any heirs, successors and assigns, and shall bind each owner thereof. The covenants may be revoked for any or all parcels within the subdivision by mutual consent of the owners of the parcels in question and the governing body of Cascade County;

16. Modification of existing irrigation tank installed on-site, properly maintained and equipped with the proper appurtenances for the Ulm Volunteer Fire Department to use for firefighting at all times. Provide the developers install and the homeowners association maintain an accessible approach for access to the cistern at all times. The modification of the tank, with a maximum capacity of 120,000, will allow it to maintain a minimum of 17,000 gallons for fire suppression services;
17. The homeowners association shall be responsible for the continual maintenance of the equipment subject to adequate inspections by the Fire Chief of the Ulm Volunteer Fire Department to insure the equipment is being properly maintained;
18. MDEQ approval for the proposed site grading and drainage and stormwater conveyance system shall be submitted prior to final plat approval. Additionally, final engineering plans, stamped by a professional engineer in the State of Montana, shall be submitted to the Cascade County Planning Division with the final plat submittal;
19. A copy of the MDEQ General Discharge Permit for Stormwater associated with construction activity shall be submitted prior to final plat approval, if applicable.

CONCLUSION: The proposed subdivision meets the requirements of the Cascade County Subdivision Regulations, except where noted by approved variance, as well as Montana's Subdivision and Surveying Laws and Regulations and the applicant has fulfilled all the conditions of approval.

MOTION TO DENY: I move that the Commissioners, after consideration of the Staff Report and Findings of Fact **deny** The Final Plat for Rolling Meadows Phase 3 major subdivision.

MOTION TO APPROVE: I move that the Commissioners after consideration of the Staff Report and Findings of Fact **approve** The Final Plat for Rolling Meadows Phase 3 major subdivision due to the nineteen (19) conditions being met.

**RE: Variance Request - Road Standards, Section 10-4(2)
Rolling Meadows Phase III Subdivision
Cascade County, Montana**

Dear Mr. Hopkins:

On behalf of Bonesteel LLC (Robert and Gale Morgan), the purpose of this letter is to formally request a variance from the Cascade County Subdivision Regulations, Section 10-4(2), to allow an alternate road design specification for the proposed Rolling Meadows Phase III Subdivision. The subdivision received preliminary plat approval in June of 2018; the conditions of approval require Ponderosa Drive and Caragana Drive to be improved to the specifications shown in Section 10-4(2) and Table 1 of the Cascade County Subdivision Regulations.

Strict compliance with this regulation would require the existing roads - which were constructed to a previously accepted standard in the late 1990's - to be widened from a width of approximately 16 feet to 24 feet. The widening of the road would also require the construction of new drainage ditches. Furthermore, all conflicting utility lines (power, gas, phone, etc.) and service boxes for the community irrigation system within or adjacent to the widened road would also need to be relocated. The total expense associated with the road widening are significant, resulting in an undue hardship upon Bonesteel LLC.

The variance criteria are addressed as follows:

1. The granting of the variance will not be detrimental to the public health, safety, or general welfare or injurious to other adjoining properties;

Response: At the time of construction, Caragana Drive and Ponderosa Roads were constructed to an acceptable road standard for the original Rolling Meadows Subdivision, including Phase III. The original planned Phase III had a higher lot density than the current design; therefore the proposed traffic volumes on these roads represents a reduction to what was originally planned. Caragana Drive and Ponderosa Road are and will remain low speed and low volume local access roads; therefore, the

granting of the variance will not be detrimental to the public health, safety or general welfare or injurious to other adjoining properties.

2. The variance will not cause a substantial increase in public costs;

Response: All internal roads are maintained by the Rolling Meadows Subdivision HOA. Granting of the variance will not result in any increase to public costs.

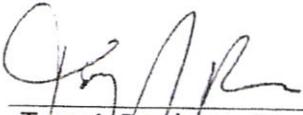

3. The variance will not place the subdivision in nonconformance with any adopted zoning regulations.

Response: Granting of the variance will not place the subdivision in nonconformance with any adopted zoning regulations.

Please feel free to contact me should you have questions or comments via email at tony@jbartengineers.com or telephone at (406) 449-1306. Thank you.

Sincerely,

RE: Rolling Meadows Subdivision Phase 3
Cascade County
E.Q. #19-2176

Dear Mr. Prothero:

The plans and supplemental information relating to the water supply, sewage, solid waste disposal, and storm drainage (if any) for the above referenced division of land have been reviewed as required by ARM Title 17 Chapter 36(101-805) and have been found to be in compliance with those rules.

Two copies of the Certificate of Subdivision Plat Approval are enclosed. The original is to be filed at the office of the county clerk and recorder. The duplicate is for your personal records.

Development of the approved subdivision may require coverage under the Department's General Permit for Storm Water Discharges Associated with Construction Activity, if your development has construction-related disturbance of one or more acre. If so, please contact the Storm Water Program at (406) 444-3080 for more information or visit the Department's storm water construction website at <http://www.deq.state.mt.us/wqinfo/MPDES/StormwaterConstruction.asp>. Failure to obtain this permit (if required) prior to development can result in significant penalties.

In addition, your project may be subject to Federal regulations relating to Class V injection wells. Please contact the United States Environmental Protection Agency regarding specific rules that may apply.

Your copy is to inform you of the conditions of the approval. Please note that you have specific responsibilities according to the plat approval statement primarily with regard to informing any new owner as to any conditions that have been imposed.

If you have any questions, please contact this office.

Sincerely,

Rachel Clark, Supervisor

Agenda #3

Agenda Action Report
Prepared for the
Cascade County Commission

ITEM: Presentation: Missouri River Open Lands

PRESENTED BY: Al Rollo

Presenting a great opportunity to conserve a great piece of open land in Cascade County bordering both the City of Great Falls and the Missouri River.

Presentation to Cascade
County Commission

Missouri River Open Lands

January 28, 2020

Why Are We Here?

- To discuss a great opportunity to conserve a great piece of open land in Cascade County bordering both the City and the Missouri River.

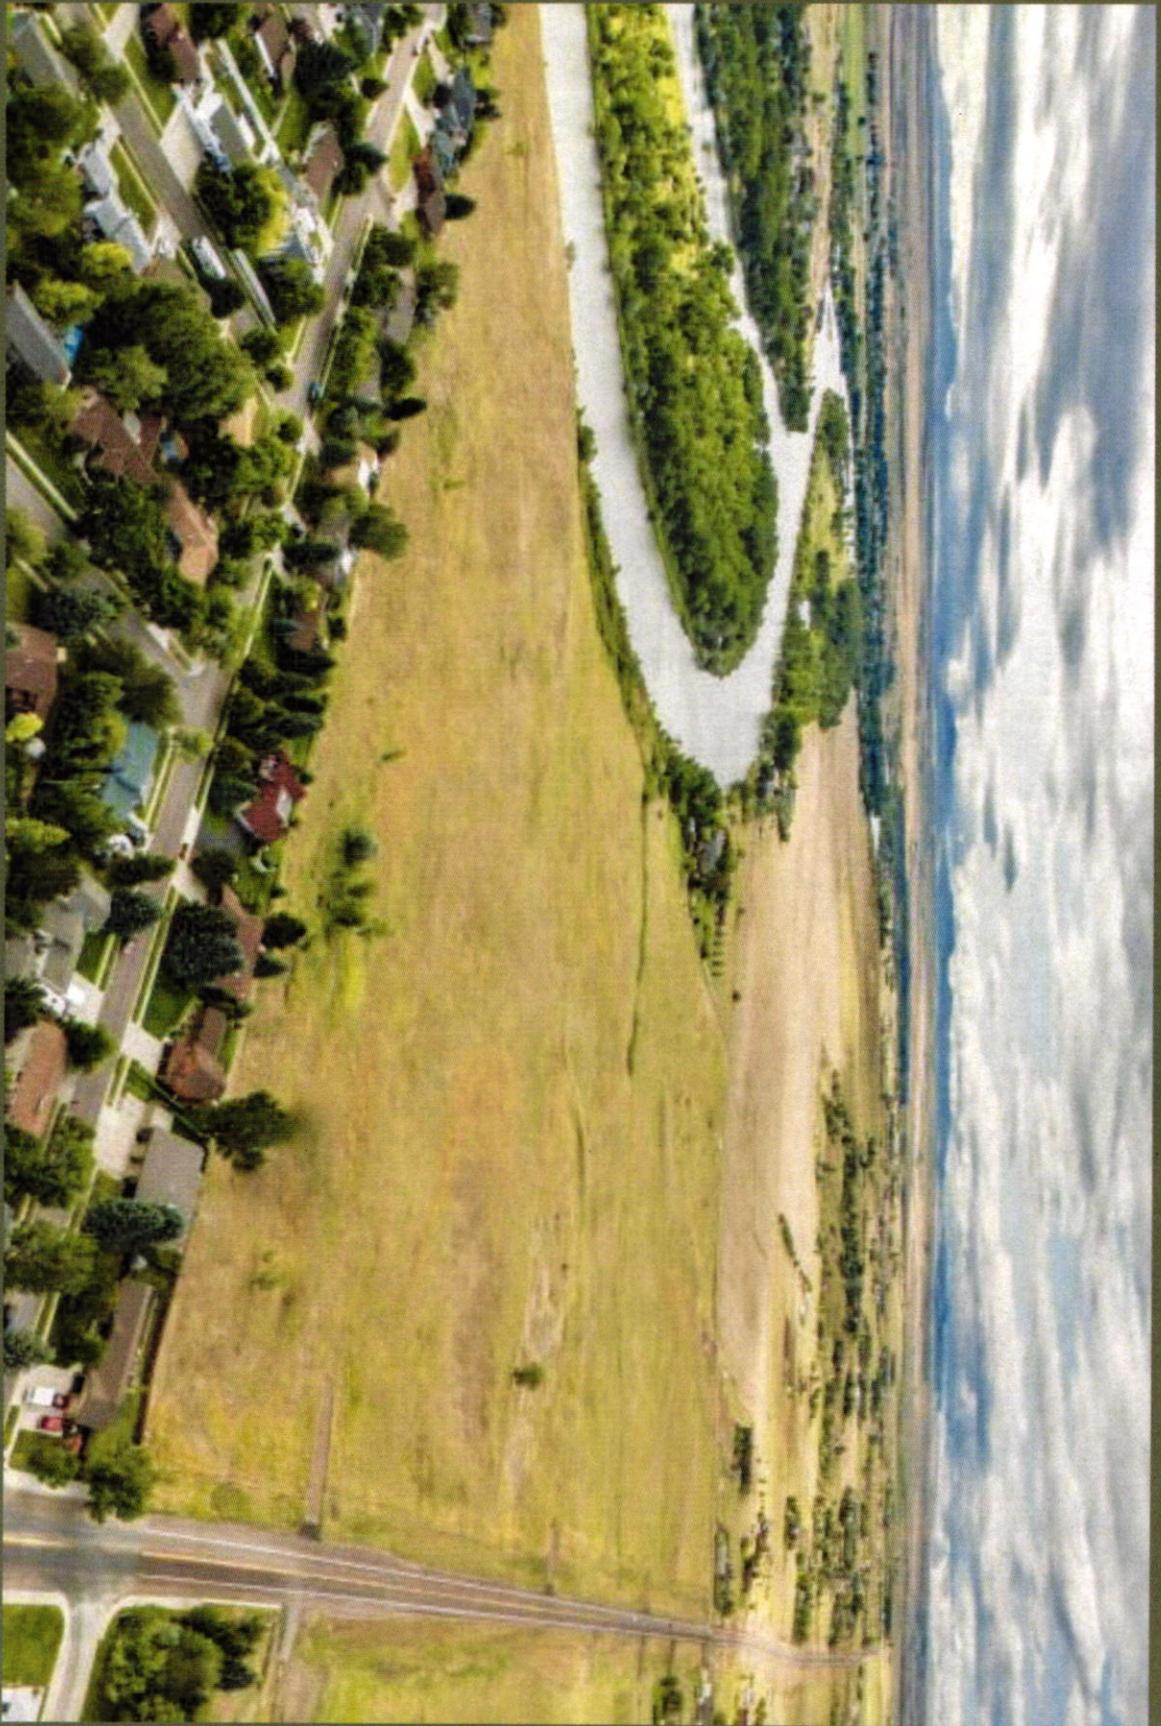

Location and Description of Parcel

- Heading South on Fox Farm Road right at edge of town.
- Bordered by:
 - Houses
 - Fox Farm Road
 - Missouri River
 - Gravel Road
 - Farm Land
- Approximately 75 acres.

90.8 ac
state lands

2.87 ac
100 yr

History of State Ownership

- Part of School Trust Lands for income.
- State has done nothing for 50+ years
- Interest was generated by Fox Farm Road improvements, putting that land “in the path of development.”
- Options:
 - Sell outright on South half only.
 - Lease North half of land for commercial use.
 - Split— some gets sold or leased, some conserved.
 - Conservation Easement for full 75 acres.

Why This Land is Worth Saving

- Fits in with early pioneers in Cascade County who had the vision to set aside land for open space.
- Wildlife: deer, foxes, eagles, songbirds.
- Recreation: hiking, biking, dog walking, fishing, swimming, water sports, & winter sports.
- City owns the Taylor Island right across channel
- Last chance to save a piece of land in the area.

Easement Process

- Must be held by a governmental entity.
- State must follow a process in which notice is given, which starts the clock ticking.
- Notice was given last year.
- State held a “Developer Interest” meeting
 - No developers in attendance.
- Their goal was to put it up for sale/lease in October, which was delayed.
- North parcel closest to City can only be LEASED.

Soils, Runoff and Wetlands

Steps We Have Taken

- Formed a Community Action Group
- Hold Several Meetings a Year
- Website: www.missouririveropenlands.org
- Facebook Page
- Online Petition: 300+ in support
- Letters of Support from County Commission, River's Edge Trail, GF Bike Club, Portage Route Chapter, Conservation and Recreation Groups, Upper Missouri River Breaks Audubon.
- Applied for a grant from MT Fish Wildlife Conservation Trust, whose funding came from sales of leases on the Missouri River. We plan to apply again.
- Met with City Manager and Commission.
- This meeting with the county!!

City of Great Falls Involvement

- A letter was sent from City Manager to DNRC saying they are ***considering*** holding the easement.
- Easement does NOT mean City or County needs to fund this or change its responsibility-- similar to Taylor Island and the original River's Edge Trail easement.
- Put out a timetable as far into the future as possible for meetings, etc.
- If City or County decide NOT to hold easement, help us work with other entities who might.

Easement Consideration

- Many different entities hold these easements— Cities, Counties, FWP, Conservation Districts, DNRC, Land Trusts.
- We are **NOT** suggesting this become a park, want to leave it **AS-IS** for wildlife and people.
- We believe this is right in line with local values.
- ***Please support this: Our founders would want you to!***

***Thank you for giving us
this opportunity!***

Don't let the sun set on this last best piece of
land on the Missouri in Cascade County
