 - c. Soil erosion, sedimentation, and storm water runoff.
 - d. Protection of public, community, or private water supplies, including possible adverse effects on surface waters or groundwater.
- (3) The proposed development will not substantially injure the value of adjoining property or is a public necessity.-Considerations are the following:
 - a. The relationship of the proposed use and the character of development to surrounding uses and development, including possible conflicts between them and how these conflicts will be resolved.
 - b. Whether the proposed development is so necessary to the public health, safety, and general welfare of the community or County as a whole as to justify it regardless of its impact on the value of adjoining property.
- (4) The proposed development will be in harmony with the area in which it is located. Considerations are the following:
 - a. The relationship of the proposed use and the character of development to surrounding uses and development, including possible conflicts between them and how these conflicts will be resolved.

10.7 OPERATIONS

Operations in connection with Special Use Permits shall not be more objectionable to nearby properties by reason of noise, fumes, vibrations, or flashing lights, than would be the operation of any permitted use.

10.8 STAFF REVIEW

After an application is reviewed by the Planning Staff and deemed to be complete, staff will proceed with notification of adjoining property owners, posting of the notification of public hearings, and determine the date, time, and place for the public hearing to occur before the ZBOA.

10.9 ZONING BOARD OF ADJUSTMENT REVIEW

In reviewing Special Use Permit Applications, the ZBOA will hold a public hearing to allow the staff, petitioner, and other interested parties to present competent, substantial, and material factual evidence relating to the required conclusions. The Board will then discuss the petition and make findings of fact supported by the presented evidence. Based on those findings, the Board will decide whether or not it can reach each of the required conclusions. The Board may approve a petition only if it reaches all of the required conclusions. The Board may approve a petition subject to conditions reasonably necessary to carry out the purposes of this ordinance.

Note: The petitioner bears the burden of presenting sufficient factual evidence to support findings of fact that allow the Board to reasonably reach each of the required conclusions.

After hearing presented evidence and the Board’s discussion, the petitioner may ask the Board’s permission to revise the petition to address raised concerns. If the Board grants the request, the Board may either adjust conditions to the Special Use Permit or table the review process until the next ZBOA meeting to allow all interested parties the ability to submit additional comments to the revised petition.

If the petition is approved, the Planning Staff will prepare and issue the petitioner a Conditional Letter of Approval indicating the conditions upon which the Special Use Permit will be issued. Once the petitioner satisfies the conditions set forth by the ZBOA, the Planning Staff will issue the Special Use Permit.

10.10 APPEALING ZONING BOARD OF ADJUSTMENT DECISION

Appeals of the ZBOA decision shall follow the process as outlined in Section 12 of these regulations.

10.11 REVOCABILITY

A violation of a Special Use Permit will be treated as any other violation under Section 13 of these regulations.
